| <b>Maximum Marks</b> | 1 Mark       |

### Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

| S.No | Feature Name          | Description                                                   | Status (Implemented / Partial / Pending) | Demonstrated (Yes / No) | Remarks                    |
|------|-----------------------|---------------------------------------------------------------|------------------------------------------|-------------------------|----------------------------|
| 1    | Loan Application Form | Users enter applicant details through the web form.           | Implemented                              | Yes                     | Working successfully       |
| 2    | Data Preprocessing    | Input data is scaled using Standard Scaler before prediction. | Implemented                              | Yes                     | Accurate preprocessing     |
| 3    | Loan Prediction       | Random Forest model predicts loan approval status.            | Implemented                              | Yes                     | 79% prediction accuracy    |
| 4    | Result Display        | Displays "Loan Approved" or "Loan Not Approved".              | Implemented                              | Yes                     | Real-time prediction       |
| 5    | Model Integration     | Integrates the trained ML model with the Flask application.   | Implemented                              | Yes                     | Prediction works correctly |
| 6    | Docker Deployment     | Packages the application for easy deployment.                 | Implemented                              | Yes                     | Docker configured          |

### Feature Implementation Summary:

|                                   |   |
|-----------------------------------|---|
| <b>Total Features Proposed</b>    | 6 |
| <b>Total Features Implemented</b> | 6 |

|                                 |      |
|---------------------------------|------|
| Total Features Demonstrated     | 6    |
| Overall Implementation Rate (%) | 100% |
